

immediate specialist support for students subjected to sexual violence & abuse.

hello thanks for stopping by, you amazing human.
we'd like to take a moment to introduce ourselves...

we're GINA

a UK social enterprise & non-profit organisation providing private, immediate & specialist support, bespoke products & resources for individuals subjected to sexual violence & abuse.

there is **no waiting list** for GINA's support; we're here for you & your students whenever you need us.

sexual harassment, violence & abuse can & does happen on school, college/sixth form & university campuses.

if your students have been subjected to sexual violence & abuse in their past, this may also be impacting their current studies, life & wellbeing.

our specialist counselling, support & resources is tailored to support students with the complex impacts of sexual trauma; something that private, generic counselling often fails to address.

our immediate counselling offer also avoids any lengthy waiting lists associated with traditional free counselling support.

we already have existing strong partnerships with academic institutions such as the [University of Birmingham](#).

working with GINA is an opportunity to support your university with Corporate Social Responsibility (CSR) & Environmental, Social & Governance (ESG).

sister organisation of Rape & Sexual Violence Project (RSVP).
